Faculty Coordinator: Ms. Neha Sharma & Mr. Rajat Malik

Resource Person: Ms. Garima Gupta, Director HR nClouds

Every year, International Women's Day is celebrated on March 8 across the world. It's a day when women are recognised and celebrated for playing various roles in different spheres of life. This day is honouring the social, economic, cultural and political achievements of women worldwide. It also advocates for gender equality. This global celebration provides us an opportunity to reflect on the status of women in society.

The theme for International Women's Day 2024 is "Inspire Inclusion". This signifies that when we express appreciation and respect for women irrespective of their diverse backgrounds like their origin, financial status and political beliefs, it contributes to the overall improvement of the world. Creating an environment where women feel a sense of belonging and importance not only strengthens them but also empowers them, ultimately leading to positive impacts for everyone.

Department of Management at Maharaja Agrasen Institute of Technology was elated to celebrate International Women's Day by organising a guest lecture on "Invest in Yourself-Accelerate Progress" for all the female students, staff and faculty members.

Resource person for the session was Ms. Garima Gupta, Director HR nClouds. She deliberated an inspiring session on the importance of investing in oneself and one should never hesitate expressing herself. She emphasised on making us realised that we are already a brand and how well we can build a personal brand for ourselves. She pondered on the importance of preparing SMART goals in life to achieve personal and professional success.

Plethora of valuable insights and experiences were shared by the resource person during the session. As a unanimous call from all the attendees the session is highly appreciated and admired.
