FORM B

Objective:

Maharaja Agrasen Institute of Technology, Rohini, Delhi organized its 4th National Seminar on “Emerging Paradigms in Management: Trends, Challenges and Opportunities (Building Sustainable Roadmap for Future) on May 26, 2023 aimed at raising awareness to the youth on sustainability issues for the long-term survival. The objective was to sensitize youth on the deeper understanding of global realities on sustainability and issues faced by global community. Also, to grapple the implications of the current situation with a myriad of terms and concepts to express a vast array of perspectives, priorities and approaches to address the critical global environmental issues.

Abstract:

The 4th National Seminar on Emerging Paradigms in Management, organized by Maharaja Agrasen Institute of Technology, focused on building a sustainable roadmap for the future. The seminar witnessed active participation of 350 students from MBA and BBA, faculty members, and industry professionals. Divided into three sessions - Inaugural Session, Technical Session 1, and Technical Session 2 (Valedictory Session) - the event covered various topics such as sustainable development goals, environmental impact, entrepreneurship, and innovation. Eminent speakers shared valuable insights and highlighted the importance of adopting sustainable practices in business. The seminar successfully provided a platform for knowledge exchange and learning, leaving a positive impact on the participants.

Conclusion

In conclusion, the 4th National Seminar on Emerging Paradigms in Management, organized by the Department of Management at Maharaja Agrasen Institute of Technology, was a successful event that brought together students, faculty, and industry experts to explore the trends, challenges, and opportunities in building a sustainable future. The seminar featured informative sessions by renowned speakers, fostering knowledge and enthusiasm among the participants. Overall, the seminar proved to be an enriching experience, contributing to the understanding of sustainability and its importance in the field of management.
